Walls, ceilings & panels

The DESCOR® system; textile covering for walls and ceilings

Exclusive room design; rediscovered and newly interpreted. DESCOR® is an innovative concept for interior textiles. The modern stretch system used to cover walls, ceilings and panels is not just conventional room design - smart DESCOR® textiles combine aesthetics with functionality in perfect harmony and interplay with the DESCOR® mounting system that can transfer any space in no time at all. An intelligent holistic concept; experience the unexpected with DESCOR®.

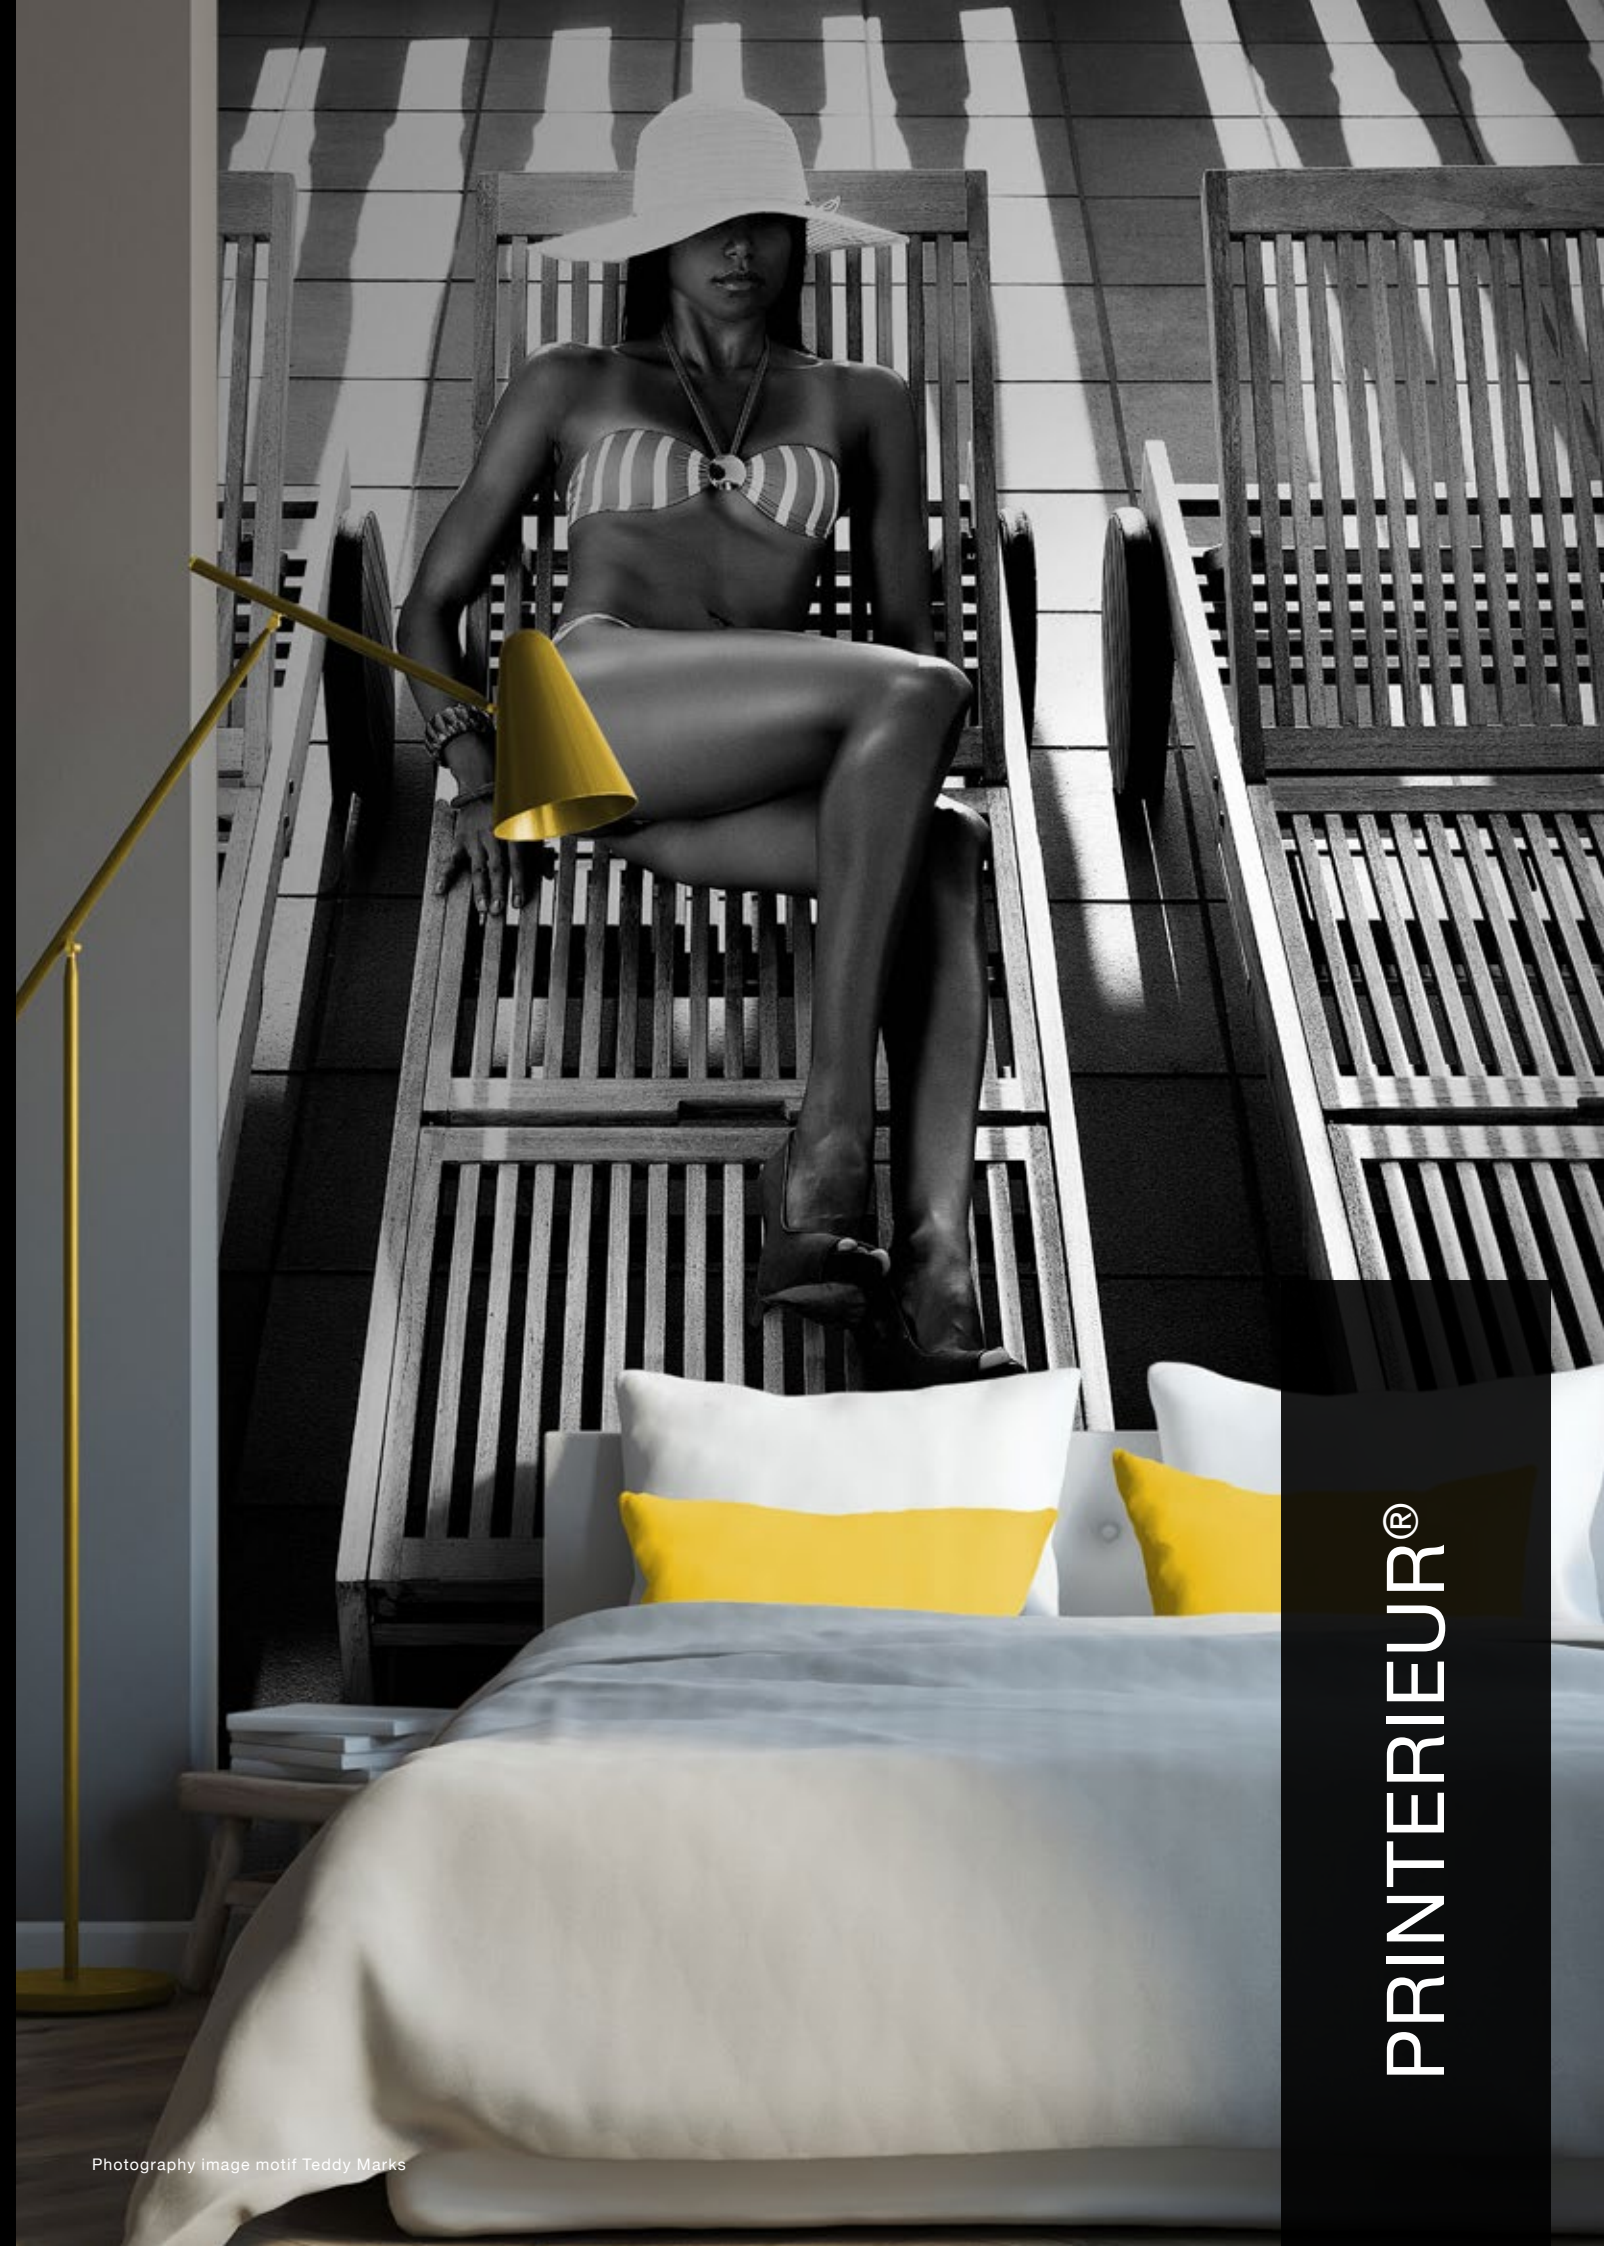

Acoustics have become increasingly important in modern, contemporary interior design. Sound-absorbing textiles by PONGS® open up new possibilities in architecture: AKUSTICO® is ideally suited as an upholstery material because of its high abrasion resistance; SILENCIO® is a three-dimensional woven fabric, giving it a unique decorative edge over other textiles.

For both private and contract building, the possibilities are endless.

PRINTERIEUR®; artistic aesthetics

A new fascination; the PONGS® PRINTERIEUR® shop compiles high-quality graphics and pictures for modern concepts of interior design. Especially prepared for large-format and fine art reproduction; these are the templates for tomorrow's designs. You can be the creator of your own visions by choosing a distinctive motif printed on our excellent textiles - creating subdued elegance or extreme extravagance.

Working with galleries, recognised artists and top-class photographers worldwide, the PONGS® Black Label is a limited collection of exclusive images, which are certified and signed by their authors.

PONGS®

Large-format printing

Large-format printing; impressive dimensions

PONGS® is the leading global developer and manufacturer of high-class woven and knitted print media in widths of up to 505 cm and flexible lengths. Our textiles are certified for all ink systems; for utmost colour reproduction and attention to detail. We employ professional colour management and create ICC profiles; achieving optimal results for printers.

We provide print media for all areas of use, for example crease-resistant textiles and fabrics free from stress whitening for soft signage and backlit applications. Excellent light diffusion arousing a brilliant liaison of function and aesthetics.

.03

Endless possibilities; contract building

A new approach to architecture; in modern object design by PONGS® aesthetics and precious functions becoming one. Innovative and holistic, we provide complete solutions for modern room design. Optimally adapted systems including textile wall and ceiling coverings, room dividers, furniture and objects with sound-absorbing cover fabrics. Digitally printable and stuffed with various smart properties they are changing rooms into a whole new impressive overall concept.

.04

PONGS®

Show & event

Capture emotions; with stage, show and event textiles

Textiles by PONGS® are made to be in the limelight. Not just because of their crowd-stopping appearance, but also because of the smart properties behind the decorative textiles and stage fabrics that create unique atmospheres and offer outstanding acoustics. PONGS® textiles are perfect for large-format scenery in theaters, opulent stage curtains and blackouts.

Television studios make use of PONGS® backdrops, as well as green and blue backs and recording studios use our smart textiles to create exceptional acoustic results.

PONGS® textiles allow fresh concepts to come alive at trade fairs and other events and the use of back lighting and front projection can take designs to a whole new dimension.

PONGS®

Shop design

Less is more; creating real highlights

Showrooms are retail flagships and need to mirror a company's story and success. That's why PONGS® offers aesthetic textiles or metal wallpapers, customisable walls and ceilings or classic curtains for a luxurious atmosphere. A completely unique shop design is possible every time with the flexibility to choose the right materials alongside high-quality digital print. Bright light boxes and brilliant digitally-printed textiles can bring out a company's corporate design. PONGS® provides textiles, print and light elements, all from one reliable source.

PONGS®

Decoration

Decoration; bring your ideas to life

Decoration dreams come true with extraordinary textiles by PONGS®. Whether it's flamboyant eye-catchers or calming colours, the PONGS® selection of decoration textiles and the unlimited possibilities of PRINTERIEUR® mean that anything is possible. Thanks to the wide range of products available, an excellent supply capability and our own manufacturing department, PONGS® can help to implement creative ideas within impressive timescales.

In addition to classic, elegant materials, PONGS® is something of a trendsetter, keeping up with seasonal glamour and effective fabrics, allowing visual merchandising to be striking and bold.

Roll & Shine means table decoration has never been easier. With this smart system by PONGS® dressing festive tables will be a cinch. Each set includes a tablecloth and table runner which can be rolled out in the twinkle of an eye. Roll & Shine is available in a range of coordinated colours and designs.

Our printing solutions; beyond your demands

The power of visual excitement through brilliant printings, PONGS® reaches the highest colour fidelity and sharpness of detail with dispersion, latex and UV inks. All in widths up to 505 cm and in nearly endless lengths, their textiles are perfect for all kinds of activities including display systems, backlit elements, banners or pop-ups. PONGS® is the perfect partner, from initial conception to the final product.

Our digital print department works exclusively with the most innovative printing machines and the latest ink techniques to ensure that our customers always receive sophisticated and tested PONGS® products. As a service solution for excellent printing results on our materials we provide downloads of ICC-profiles for constantly good colour management and brilliant colour reproduction.

PONGS®

Technical applications

Technical applications; functional overall solutions

PONGS® makes all the difference; not only offering the most innovative products but also the best solutions for various applications. All technical textiles are equipped with physical, technical properties and specific functions.

Our floating nets for the rearing of fish in the open sea are very exposed to light, salt water, wash of the waves and extremely high tensile load. In order to withstand these conditions net textiles by PONGS® possess attributes like tensile strength, high UV stability and they are resistant to sea water.

Sound-absorbing textiles balance the surround sound and improve acoustics; combining functionality and outstanding aesthetics. Just like sun-protection fabrics by PONGS®, we produce textiles that resist intense UV irradiation and wind, while offering excellent homogeneity at the same time.

All digital print media by PONGS® is characterised by maximum of dimensional stability, an optimum of brilliant colour reproduction and high longevity; all with record-breaking widths.

Versatile in application; our films

The spectrum of films have been pillars in the PONGS® product range for more than 40 years. Their homogenous and glossy surface and their flexibility have revolutionised the decoration of shop windows, opening-up new design possibilities across the globe. Moreover, films are highly suitable for individual table decorations for the Event and Catering sector, for concealing work spaces and presentation areas, and for flexible draping of decorations and costumes. There are endless variations - embossed or un-embossed, glossy or matte, opaque or transparent, robust and durable or fine and decorative. Films by PONGS® vary from 150 to 350 µm and are universally applicable, always available just in time.

Our customers use to get our films certified with the CE label for using indoor. A special kind of eye-catcher: Discover all the benefits and be inspired by our impressive range of films.

 PONGS®

Textile finishing; your wish is our command

PONGS® supports every single project with passion and lifeblood. From technical manufacturing for trade fair, stage construction and events up to detailed production of flags, furniture, doors and lamps, blankets and pillows. Our in-house manufacturing department will put your ideas into practice. There are no creative limits to what can be achieved.

.10

The little things in life; accessories

PONGS® is a strong partner standing by your side; combining individual solutions with the utmost attention to detail. Whether you need accessories for the DESCOR® system, for digital print products or for manufacturing, the wrap-around package for first-class textiles is also conveniently available online in the PONGS® sales portal.

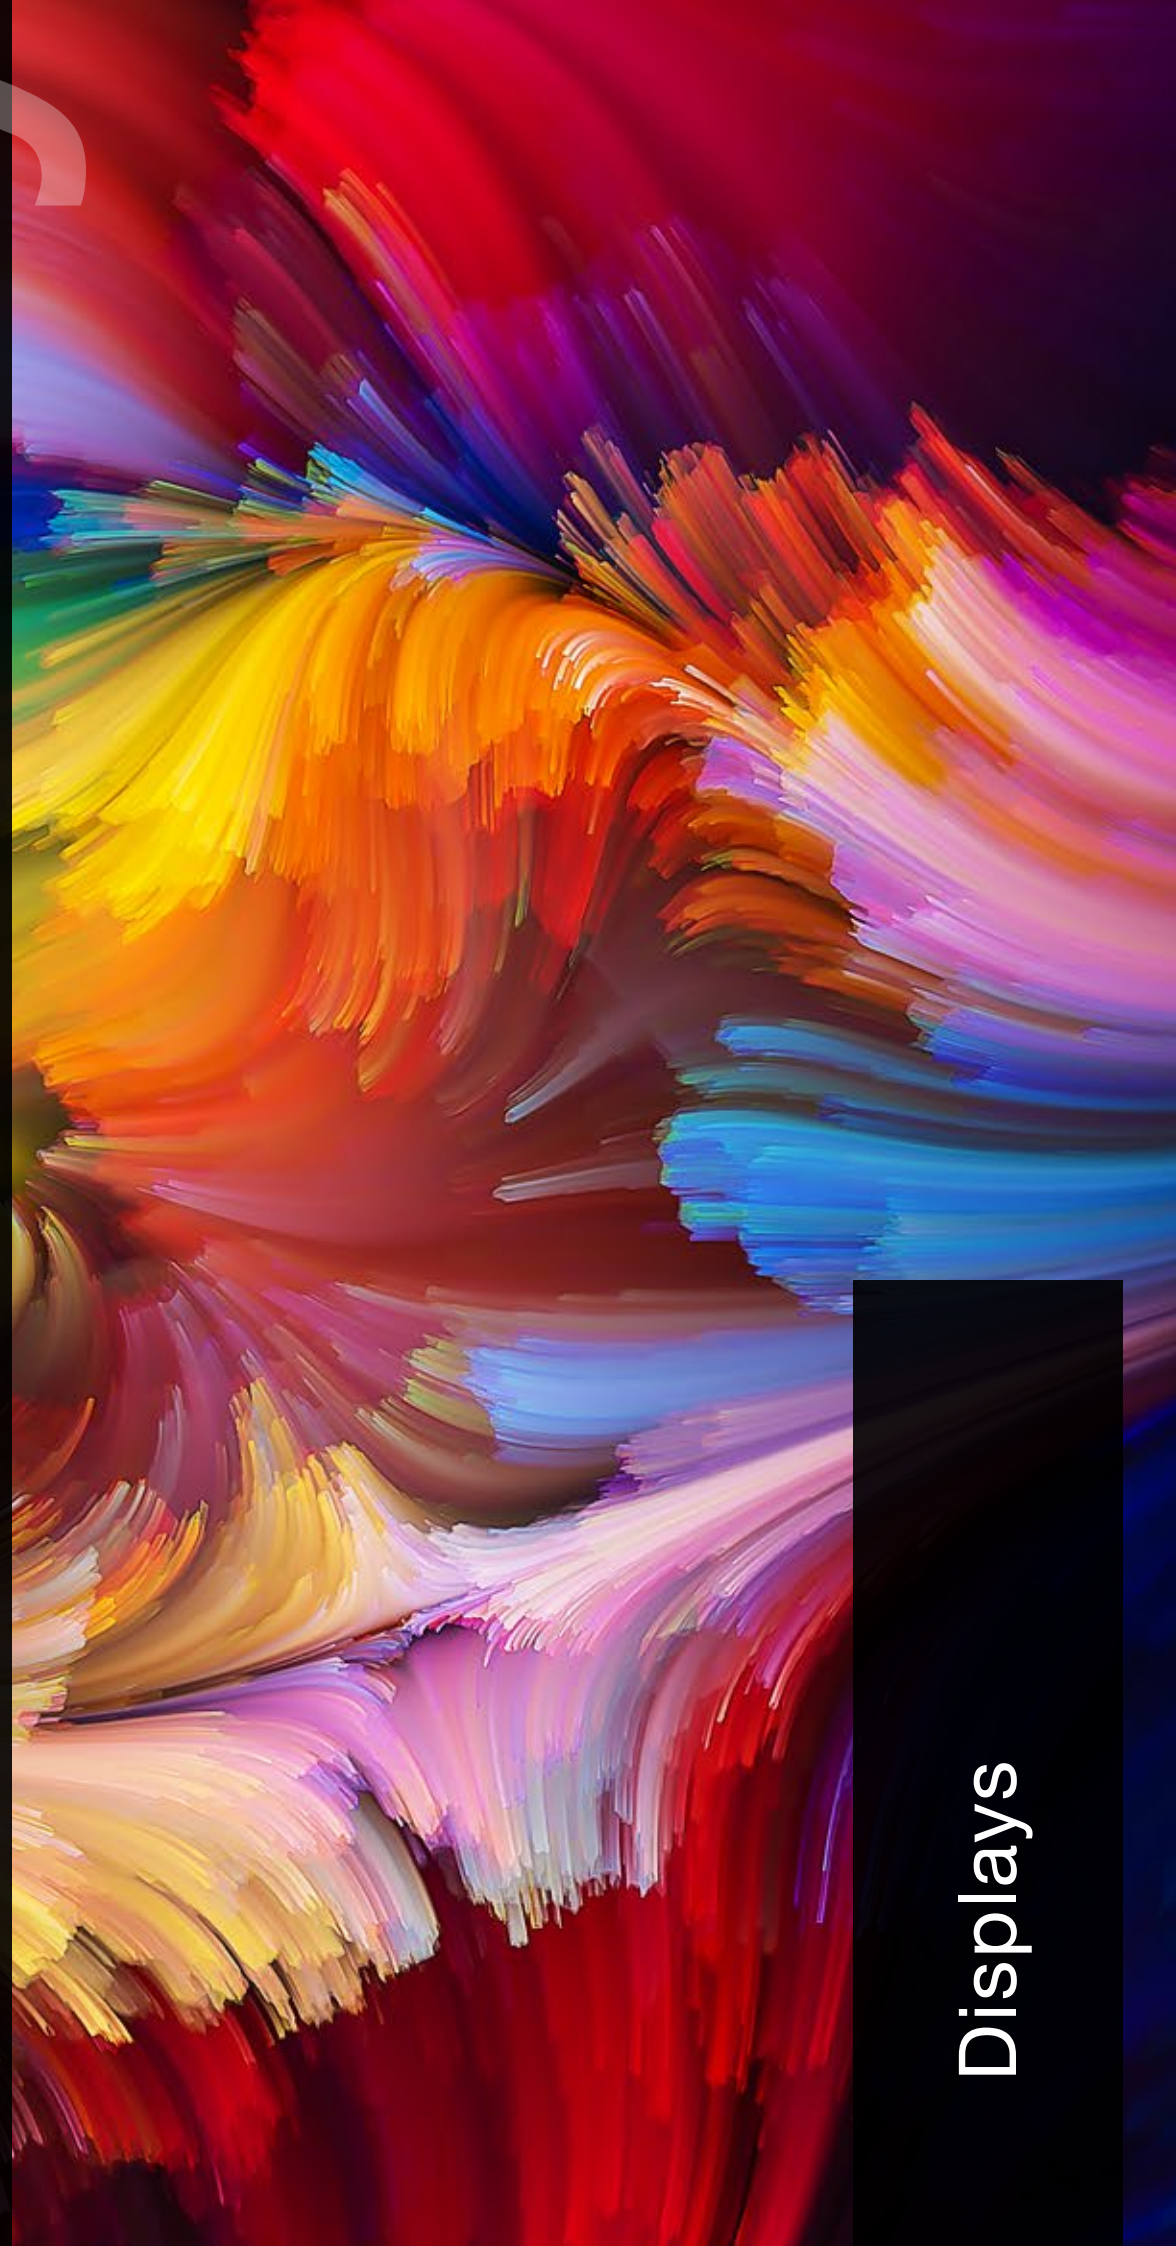

The PONGS® in-house manufacturing department puts every individual customer's wishes into practice. From conception to the final product you can be sure your project is in expert hands.

PONGS

Displays

Make it big; with our display applications

Images surround us in today's society, so creating outstanding displays is paramount in order to be seen. PONGS® will support unique staging with various systems for indoor and outdoor usage. Roll-ups and suspensions in shops can catch the eye of passers-by, while backlit textiles will make your message stand out from the crowd.

In addition to providing the best textiles worldwide, PONGS® provides matching technical systems - frames, mounting systems and light techniques. Choose between standard, medium or premium quality solutions for optimal lighting.

.12

Interior; modern room design

Incomparable; the art of living. Always special, the PONGS® design label stands for extravagant interior accessories with that certain something, sure to meet every individual requirement.

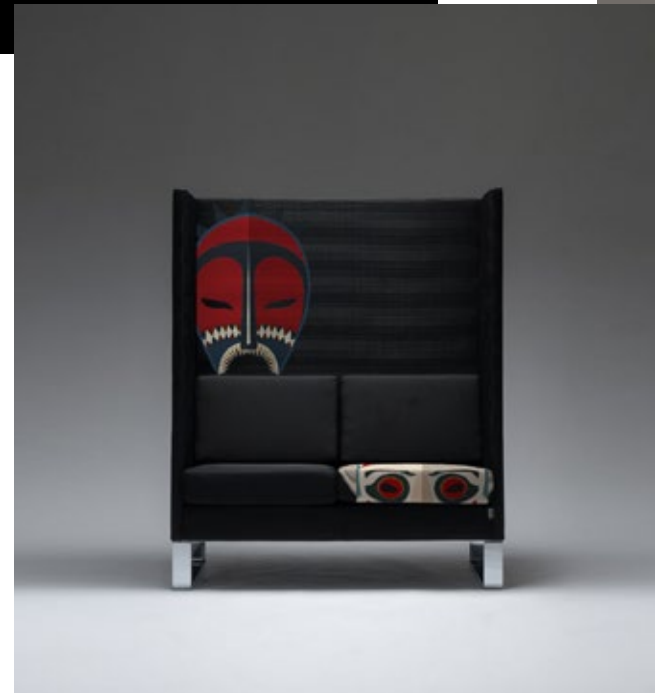

Design objects combining aesthetic looks with demanding properties - extravagance and functionality becoming one. Made to impress; eye-catching furniture by PONGS® creates more than just beautiful atmospheres. Sound-absorbing properties help balance room acoustics and improve living comfort.

PONGS®

Interior

Interior; modern room design

Soundleaves

Soundleaves are leaf-shaped elements intended to balance room acoustics and create comfortable atmospheres. They can be put in place flexibly in order to enhance disrupting ambient sounds. They were developed by Dutch acoustics experts Incatro BV and awarded the prestigious Red Dot Design Award by Design Zentrum NRW. Covered with acoustic textiles SILENCIO® and AKUSTICO® the elements are exclusively available from PONGS®. A tribute to pure beauty of nature.

Seating furniture

Take a seat and instantly feel the difference with the ergonomic curved Easy chair Helena and the smart two-seater Lounge chair. Their striking looks and clear line management are paired with sound-absorbing properties. The cover fabrics are AKUSTICO® and SILENCIO®.

Avalon

More than just a light; the interaction of form, colour and illumination of the Avalon bring an element of emotion to an illuminated object. Each light is one of a kind, with fabric interwoven with metal threads, sculpted by hand.

Light

Fandango by Kenneth Cobonpue

This light object is encircled with an aura of uniqueness, combining dynamics and power. Layers of SUPERIOR have been draped to create a delicate light scattering. This textile by PONGS® is designed especially for drapes or curtains for events, shows or other decorative environments. It's perfectly suited for covering high-volume or backlit objects.

Intelligent space design

Make the most of your room with the smart sliding door system by Raumplus and matching effective cover fabrics by PONGS®. Modern rooms ask for multifunctional, individual solutions. We have developed cabinet and storage concepts as well as partitions for homes, hotels or offices. By filling these with acoustic fabrics by PONGS® you can extend the system by incorporating an extra function. Creating aesthetic sound absorption areas usable in working environments for storage you have the perfect solution for the dynamic division of office areas.
